

CLAIM AMENDMENTS**Claims pending:**

- At time of the Office Action: Claims 8-18 and 34-37.
- After this Response: Claims 8-13.

Canceled claims: 14-18 and 34-37, without prejudice.

Amended claims: None.

New Claims: None.

The listing of claims below will replace prior versions of claims in the application:

1-7. Canceled.

8. (Previously Presented) A method comprising:

identifying video content to be encoded;

identifying a first display region associated with a first video display type;

identifying a second display region associated with the first video display type, wherein the first and second display regions are associated with different portions of an image associated with the video content, and wherein the first and second display regions overlap one another; and

encoding the video content such that the encoded video content includes information regarding the first display region and the second display region.

9. (Original) A method as recited in claim 8 further comprising:

identifying a third display region associated with a second video display type; and

identifying a fourth display region associated with the second video display type, wherein the encoded video content includes information regarding the first display region, the second display region, the third display region, and the fourth display region.

10. (Original) A method as recited in claim 8 further comprising identifying an active region of the video content, wherein encoding the video content includes indicating the active region of the image associated with the video content.

11. (Original) A method as recited in claim 8 wherein each display region has an associated display region identifier.

12. (Original) A method as recited in claim 8 further comprising communicating the encoded video content to a plurality of receivers.

13. (Original) One or more computer-readable memories containing a computer program that is executable by a processor to perform the method recited in claim 8.

14-37. Canceled.
